U.S. EXPORT SALES

- Outstanding Export Sales
(Unshipped Balances)
on APRIL 2, 1978
 - Export Shipments in
Current Marketing Year
 - Daily Sales Reported
APRIL 3 - 9, 1978
- As Reported by Exporters

Outstanding export sales as reported by private exporters and compiled with other data in this release give a snapshot view of the current contracting scene. At any given time in the course of a marketing year outstanding sales do not bear a consistent relationship to eventual export shipments. A meaningful export projection is not obtainable by the simple device of adding outstanding sales to exports to date. The latter data, alone, may provide a more reliable measure of current export activity than may be derived from a year-to-year comparison of outstanding sales.

EXPORT SALES REPORT

Comments on release of April 13, 1978 (based on reports from exporters for the week ending April 2, 1978, unless otherwise noted).

Wheat: Sales activity displayed a modest upturn after two weeks of extremely low volume. Egypt (under PL-480) was the principal buyer. Notable sales were also reported to Korea, Nigeria and Portugal. Continued strong prices may be contributing to the slack sales as buyers, in anticipation of possible lower prices with the wheat harvest rapidly approaching and improved weather in the Southern Hemisphere countries, delay purchases. Portugal, USSR, Netherlands and Bangladesh were named as final destinations on sales previously reported to unknown. Contract adjustments, principally cancellations, reduced total purchases by several countries including the USSR and Poland. The initial wheat sales to the Peoples' Republic of China (600,000 MT) for marketing year (MY) 1978/79 were reported under the daily system. The last wheat sales to the PRC were reported during MY 1974/75. Exports (762,600 MT) were the heaviest since the week ending September 25, 1977.

Corn: New sales activity of 1,309,700 MT marked the third consecutive week of sales in excess of one million tons. Japan and Korea dominated purchases with numerous other countries adding significantly to existing contract balances. Japan was also declared the final destination on most of the sales switched from unknown. Contract adjustments (cancellations/foreign purchases) resulted in net decreases in total sales to some countries. Export volume displayed a modest increase over the preceding week.

Sorghum: Market interest heightened after the lull of the past few weeks. The largest sales (80,800 MT) were reported to unknown destinations. Israel was also in the market with sales and shipments totalling 33,700 MT. Exports were the heaviest in nearly a month.

Barley: The export market registered significant activity for the second consecutive week as sales of 58,900 MT were reported to unknown destinations. Total export sales for the MY are approaching the USDA export projection of 1.3 million MT. However, of the 227,400 MT of outstanding sales, over 130,000 MT are to unknown destinations.

Oats: This week's report carried news of the heaviest sales activity (9,800 MT) in 15 weeks. Japan's purchase pushed total U.S. sales for the MY to 154,200 MT, somewhat above the USDA export projection. However, 26 percent of the total sales are still to be shipped.

Rice: Rice market interest in recent weeks has been buoyed by prospects for new sales to Iran, our largest commercial customer. However, the marketplace suffered a setback this week as exporters reported cancellations of sales to Iran of 39,000 MT for MY 1977/78 and 13,000 MT for MY 1978/79. Saudi Arabia purchased 10,500 MT of milled long grain. Ghana's initial purchase of the MY totalled 5,000 MT of milled medium-short grain. Exports were at a fairly good pace.

Cotton: Sales activity moderated from recent weeks' very high levels. MY 1977/78 sales of 45,200 RB were principally to Thailand, Korea, Japan and the United Kingdom. Sales of 76,100 RB from MY 1978/79 were mainly to Thailand, Japan, Taiwan, Hong Kong and Korea. Exports of 125,000 RB remained good with 81 percent going to Asia.

Soybeans: Sales activity (704,100 MT) registered the second largest total for the MY, including 311,900 MY to the EC and 91,600 MT to Japan. Sales to unknown destinations were reduced by 96,200 MT as assignments of the USSR (200,000 MT) and other countries as the final destinations more than offset new sales. Sales for MY 1978/79 rose by 171,400 MT. Exports (623,000 MT) were extremely high with the EC, Taiwan, Japan and Israel accounting for over 82 percent of the outgo.

Soybean Cake and Meal: New sales activity was heavy due primarily to sales of 75,100 MT to the EC. Sales to unknown were down by 54,900 MT with Italy and Yugoslavia among the final destinations assigned. Exports (208,200 MT) posted one of the heaviest weeks on record with the major recipients being the EC and Eastern Europe.

Soybean Oil: Sales to Pakistan (16,200 MT) and to unknown destinations (3,100 MT) accounted for most of the 30,900 reported. Peru, Pakistan, India and Iran were the principal destinations as weekly exports (32,700 MT) reached one of the highest levels for the MY.

Data shown above may not add due to rounding. 1/ Includes increases resulting from new sales, upward contract adjustments, shifts in delivery period from one marketing year to another and changes from one commodity to another. 2/ Net foreign purchase activity. A purchase from a foreign seller is a transaction contracting to buy U.S. produced commodity from a firm outside the U.S. -- not involving a cancellation or buy-back of a reported sale. 3/ Includes decreases resulting from buy-backs of all or part of a contract balance by mutual consent, unilateral cancellation by one party which could result in a contract dispute, downward contract adjustments, shifts in delivery period from one marketing year to another, and changes from one commodity to another. 4/ Does not include exports for exporter's own account.
